PALMYRA CIRCLE

EXTRA

Madam Pele Returns To Hawaii

Honolulu's temperature may feel fine to a lot of people, but this writer has been almost frozen every eveningand has to use two blankets at night and then some nights has to put on an additional one. It will be swell getting home where blankets are not needed.

This is a sample of what the Palmyra Circle, will look like during 1949. With the miniograph machine that has been purchased in Honolulu all copies will be clear and sharp.

Our new school is to have a small liquid process machine which the editor has been told that he can use for special editions where we will be using color for the covers. Will also be glad to get off this diet of soup, milk and soft foods. I am enjoying the fresh milk while I can also the fresh eggs.

Mrs. Kimberling I am bring your No.1 boys -... .. .r. t .... d.. .- -.-- .--. .-. . ... . -. - with me on NC65.

Mrs. Avery you should be geting your Advertizer soon if you havent already received some copies.

Mrs. Barnes your order has been filled.

Roy, I got it, and it did not cost $ & $ & $ & $

I am going to have my hands full bringing back birds, bees and flowers only the bees are to arrive later. Instead of bringing the bees with me I expect to be carrying trees.

Captain Tailor, the doctor who stopped at Palmyra last year on the graves hunting ship, sends his regards to Bob Hall.

I ran into Ruth La Fever while I was getting supplies for the paper. She sends her regards to all.

Heard that Bill O'Loughlin is now in Manila. Murry is reported to have gone to Wake Island on the last NC65 Ruth and Lamont Laffoon are in Honolulu but do not know where they are going to be sent as yet. Talked to Buck M l..ney the other day.

I hear that Marie Callis is running the commissary on Wake Island.

Went out to see the Dudoit family last night and sister (Ilima) is getting to be a big girl. She talks a blue streak but she was so excited seeing Uncle Otto that she could hardly talk.

I havent had a chance to get out to see Carl Gustaveson as yet but will try to this week.

Freddie, I have a new book for you also a bunch of cook books for the ladies that ordered them.

Mrs. Cornell, I have learned that Breadfruit trees do not grow from seed, so I am trying to get several young trees to bring back with me. Keith, I am bringing back several GOOD banana plants for you.

Doc, I have the rings you requested NO, folks they are not wedding rings they are key rings.

Aloha until the first if Feb.
